- A word from the Archivist -

Travellers,

Your steps have brought you to AnthroTales.

Here begin the stories we share, the voices we listen to, and the traces left behind by our encounters.

*In the world of **Serelia**, every note carries meaning. Music shapes connections, memories become legends, and the balance of the world rests upon those who take the time to pass on what defines them. AnthroTales is the echo of that heritage - a place where imagination and humanity meet.*

As the Archivist, it is my duty to preserve these moments. Yet no story exists alone. It is shaped through your laughter, your creations, your exchanges, and your emotions. Every meeting, every moment lived throughout this journey will enrich this Volume and those yet to come.

Take the time to explore, to listen, and to create.

May your path through Serelia be rich and sincere.

And should your imprint be left somewhere along the way... know that it will always find its place within my archives.

- Message from the Board -

Welcome to AnthroTales #ATT1, the first Volume of an adventure built on connection, sharing, and creativity.

AnthroTales was born from a simple yet essential desire for our community: to highlight the richness and creativity that define us. To create a space where every talent can be expressed, encouraged, and celebrated in an environment guided by imagination, kindness, and inclusion. A place where everyone can be themselves and celebrate what brings us together, in a spirit of respect and fellowship.

This first Volume marks the beginning of a collective project we hope to grow alongside you. It is the result of many months of reflection, discussion, and passionate work. More than a convention, AnthroTales is a gathering space for people from diverse backgrounds, united by the desire to share, create, and experience meaningful moments together.

For this inaugural edition, we invite you to discover Serelia, a world where music and stories sustain balance. This choice reflects the values we stand for: connection, listening, and the importance of human bonds. Like Serelia itself, AnthroTales can only exist because of those who bring it to life. Your presence is at the heart of this journey.

We would like to extend our sincere thanks to everyone who made this event possible: volunteers, artists, guests, partners, and staff members. Their dedication, energy, and passion have brought this first edition to life.

We wish you a convention filled with discovery, emotion, connection, and lasting memories. May these days together spark meaningful encounters and mark the beginning of a story we look forward to continuing with you.

The AnthroTales Board

- Meet the Safety -

What's the Safety team?

The Safety is a team of convention staff whose goal is for everyone to have a good time and ensure the smooth running of the convention safely. In case of conflict or problems, these are the people to whom you must approach, so that a solution based on impartiality is proposed.

How can you recognize them? And how can you contact them?

Safety team members can be found throughout the convention center and are recognizable by their **green armbands and lanyards**.

Other staff members (Board, ConOps...) can redirect you to a Safety team member if necessary, don't be afraid to ask !

The room where you can find them is the Jacques Du Brœucq room, located on the 2nd floor of the convention center.

A guard number and a Telegram account are at your disposal in case of emergency: @ATT_Safety // +32 (0) 488 99 05 06

PRERAYD

- A tiny bit of lore... -

The day of the Solstice is approaching, a day that all of Serelia awaits each year with the same enthusiasm and anticipation. It is on this evening, during the Solstice ceremony, that the Serelians pay homage to their gods and welcome the new northern lights that enable them to survive the merciless bite of the cold.

But things will not go as planned. Lina, the youngest high priestess Serelia has ever known, fails to make the northern lights appear despite a perfect performance during the ceremony. Confusion, terror, and panic take hold of the civilians, who demand explanations that no one is able to provide.

Taken aside by her father, Lina learns of an ancient prophecy: to bring back the northern lights and save Serelia, she must go to the Howling Peaks to reenact her performance and regain the favor of the winter gods. Left on her own abilities on this quest, she will end up meeting Shuy, a mysterious bard traveling throughout Serelia who decides to accompany her on her journey.

Against countless trials and freezing blizzards, they will travel together to this final destination to uncover the secret behind the disappearance of the northern lights.

- We need your help! -

Whether you like to be there for others, write, draw, or even just lend a helping paw. A link towards our recruitment platform will be made available on our social media shortly after the convention, so keep your eyes opened!
