

AURAWRA

TOMORROW'S HORIZON

Missive From the Chair

Senior management would like to offer a warm welcome to all employees, supervisors, and executives who ensure the continued success of Aurion Inc, our beloved enterprise. Established by Aurion when they unravelled Rû's chaos, Aurion Inc. has brought order and structure to our lives so that we may excel in what matters most. Productivity!

But, as a fandom, we are not just productive; we are passionate, creative, and diverse! We have a powerful sense of identity, cultivated over many years through many mediums, all in celebration of who we are in all our oddity. This, I think, is what makes our fandom truly special.

I've been amidst the fandom's local scene for some time and have seen furs come and go, each with a different story to tell. A convention is the perfect occasion for these stories to all come together in a

place where we can meet, form friendships, and make memories. To be a part of this experience, I am honoured, as are the teams that help make this all happen.

It is our sincerest hope that you, our workers, make the most of this opportunity to nourish your passions and network with your peers. Leverage your productive spirit in this professional celebration of our fandom!

So... what are you waiting for!?

Get back to work!!!

Order Meets Elegance

Frosted Monster

Awakened Demigod Sets Sights on Productivity Revolution

After their victory over a minor drake whose name has been lost to records, Aurion, the Aspect of Order, has set their sights on the business world, aiming to take a small enterprise of unpaid volunteers and turn them into a business powerhouse.

The frosty CEO expects to see record profits for this quarter, driven primarily through their revolutionary policy of 'not paying anyone'.

"Never call me a disruptor again," the Lyrebird noted firmly, their words as icy as both their demeanour and the room they were interviewed in.

“Disruption is disorder. Disorder is chaos, and chaos will not be tolerated.”

Which is not to say Aurion's rise to prominence has gone without incident. Anonymised surveys of the increasing workforce of Aurion Inc. show a rising unrest in the group, with petty vandalism of office infrastructure appearing in greater amounts. However, Aurion seems to take a different perspective.

"There is no dissent in Aurion Inc, and if you print that there is, you're fired."

Truly, a stirring and inspiring sentiment.

Kiki Chaos

Le Constructeur Kiki

Hi! My name is Kiki!

With over 5 years of fursuit making under my belt, I've made a full-time business out of bringing your fursonas to life!

I fell in love with this community 8 years ago, drawing and animating at any chance I got. Curiosity (and a general lack of funds) had me quickly researching how to put together my first fursuit. Though it was far from perfect, the joy of turning my 2D character into a wearable creation was enough to convince me of my future as a fursuit maker. The creation and success of my mascot, Moss, gave me the boost I needed to really turn that hobby into a business!

Today, over 50 suits later, I can't express how grateful I am to this community for the love and support I've received for my craft. Building my social media presence and having fun creating content has been half the fun of this job. I have so many exciting plans and projects to show you all soon!

Blueroo

A Rattle and a Bark

Ayyoo! My name is Blueroo, and I've been working on a project called Sweigz!

In short, Sweigz is a brand in which I've been creating art, clothing, prints, stickers, and graphics. To best describe the style of my work, you can take reference from street, cartoon, and abstract art. My subject is always an animal, where you will see a lot of dogs, cats, birds, and foxes (who could have guessed?).

Bold black lines and heavy saturation are key structural factors in my art, with stupid doodles and sketches hidden throughout (the dumber, the better). Getting to see people discover each piece is a massive highlight that encourages me to think further and further outside the box.

I've only just started taking some massive leaps in the growth of Sweigz, and I owe a massive amount of that to the Furry Fandom.

The sheer amount of support I've received has been the driving force for me to create more and consider the possibilities.

Fursuit Walk

Hello valued employee,

It pleases the management of Aurion Inc. to inform you that this year, we will be having a company-mandated walk and photoshoot on **Saturday 26 July at 10:00am**. This is for the benefit of employee socialisation which has nothing at all to do with the management meeting their KPIs for the year.

Employees should gather in and around the main Ballroom at **10:00am**. Those who are wearing cromulent optional anthropomorphic attire, also known as **“Fursuits”**, should ensure they travel with their immediate nominated safety officer, also known as a **“Fursuit Handler”** and an adequate stock of water to ensure no lost-time injuries (the CFO has advised that the company can only provide water in exceptional circumstances, so employees are directed to bring their own).

At the appointed time, company team leaders will guide you on your journey. The company has provided them with **BLUE** or **YELLOW** vests for easy identification, and you are asked to please follow any directions that they give you.

Our focus group of carefully chosen yes-creatures decided that the most exceptional destination for this walk would be the **Wharf of Parramatta Quay**. We paid them too much not to agree with their assessment, so that is where we are going.

Kind Regards,
Sli Cougar
Associate Director of Fursuit Relations and Operations
“May Aurion Inc. forever provide us with safety, security, and order.”

- Key Times and Locations**
- Starting Point: PARKROYAL Parramatta **10:00am**
 - Travel east along Phillip Street, crossing Wilde Avenue
 - Left turn and descending down George Khatter Lane
 - End Point: Parramatta Quay/Parramatta Ferry Wharf
 - Company Group Photo for attired participants (“Fursuits”) taken **11:15-11:30am**
 - Returning to the PARKROYAL Parramatta at **11:30am**
 - Company-mandated walk complete by **12:00pm**

Once you have arrived, please make sure to stay and form part of our yearly photo so we can claim that company morale is high for our fantastic and not at all terrifying Director Aurion! We all know that keeping these events orderly and ebullient is something that makes them most content!

For any employees who require assistance of a medical kind, please see one of the official company First Aid subdivision associates, who will be wearing company-mandated **GREEN** vests. Finally, please be sure to check company social media feeds in case of potential bad weather. Alternative instructions can be seen on the opposite page should pernicious weather interfere with the company walk

Kai Adin Cooper-EDFEE LMD
Lead Divisional Cross-Logistics Operational Manager, First Aid and Fursuit Operations

Wet Weather Plan

Dear valued employees,

It has come to our attention that rogue elements driven by the machinations of Rû may impede our most energising and team-coherence-building walk! We, the management, will do our best to stop this; however if this pernicious being has its way, then please adhere to the following for team photos in the Grand Ballroom.

Wet Weather Photograph Slots

10:30a - 10:45a
Red, Orange, Brown

10:50a - 11:05a
Green, Blue, Purple

11:10a - 11:25a
White, Black, Yellow, Pink

In addition, if this unfortunate event comes to pass, the Director has approved a set of excellent aerobic and humour activities, commonly known as “Fursuit Games” to alleviate any sadness that may arise from not being able to do our walk!

We, the management of Aurion Inc. appreciate your cooperation!

Fursuit Games

The staggered photograph will be followed by 30 minutes of Fursuit Games, time permitting.
