Snowy Paradise

SNOWY PARADISE

Dear Attendee,

We would like to warmly welcome you the second edition of Furvester!

It has been a busy year for all of us in the team and we listened to your feedback to improve the convention even more. We've got a lot more panels to entertain you as well as activities to fill the time between the panels. There's also a lot more space available for everyone to hang out and during two days you'll be able to buy art and items at our new Dealers' Den!

In case you have any questions or need assistance with something feel free to ask a member of our team anytime, we are here to help and improve your convention experience as good as we can.

At the end of the closing ceremony, we are also going to run a small charity auction, where we will auction off pieces of this year's decoration. If you want to donate something that we can auction as well, we'd be really grateful for that!

The Furvester team wishes you a great time and a lot of fun!

CHARITY

This year we decided to support the local animal shelter "Maria Höffner" in Landau with our charity. The shelter has a history reaching back to 1931, being the first one of its kind in the region.

They generously take in animals from people who are not able to care about them anymore and give them a home, until they can be placed in a new permanent home. When people go on vacation, they can also leave their pets there to have them properly taken care of while they are gone.

The shelter solely relies on donations, both financially and in the form of workforce. At the moment, both their quarantine house and their aviary is in need of renovation, which requires a lot of money. Thus our charity team is going to collect donations during the convention. If you are a fursuiter, you can pick up a donation can at ConOps and collect money for the cause.

FURVESTER APP

Mobile App

If you have a smartphone, you may be interested in our mobile app, which is available for any major smartphone platform. It is your mobile guide for when you don't have the con book with you! You can use it as a personalized schedule with reminders for upcoming events (on supported devices) and a handy map to find your way around the event area.

There are two ways to use the mobile app. The first approach is to simply open <https://app.furvester.org> in your browser. If you prefer a more native experience, you have the option to add the app to your home screen. Your browser might either give you a direct pop-up when accessing the URL, with which you can directly add it. Otherwise you can open the options menu of your browser and select "Add to home screen".

Once the app has loaded the schedule, a permanent internet connection is not required anymore. It will try to look for updates from time to time, but will continue to function even if you are offline.

Mobile Game

To keep you entertained while you don't have anything else to do, we've prepared a mobile game you can play against the other attendees. To join the game, you have to sign in with your website account into the app. The goal of the game is to collect as many snow flakes as possible. The winner is the one with the most snow flakes collected and will be announced during the closing ceremony.

The rules of the game are simple. We have hidden multiple cards over the entire convention area and continuously add new cards every day. Those cards contain codes you can enter into the app. While you can only use each code once, some cards may exist multiple times with different codes! There are four different kinds of cards you should keep a lookout for:

Choice cards:

These will present you with a situation and different actions to react to it. Some choice cards will also allow the use of items. Depending on the action you choose, you'll receive a different amount of snow flakes.

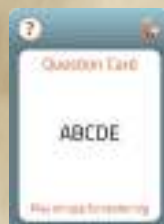

Item cards:

You will receive an item which you can use once against a choice card. After use, it will disappear from your inventory. The only way to obtain it again is to find a similar card with a different code.

Event cards:

These will instantaneously give you snow flakes without any further action.

Question cards:

These are the hardest cards to get snow flakes out of. You have a set number of tries to answer the question on them correctly.

The high score is available through the app during the entire convention. During 31 December, the first five places will be anonymized, so neither their names nor their exact snowflake count will be visible. Three hours after midnight on 1 January you will not be able to use any more cards. As of then, the score is frozen and you'll have to wait for the closing ceremony to find out whether you won or not!
