

Foreword

A long time ago, in a galaxy far, far away...

But since we live here and now, let's try it from a different angle. Here and now we welcome you at Rusfurence 14.

Time brings forth change. The Furrence has changed, and it's a fact, but some things stubbornly refuse to change, you know that?

For example, time and again we tried to find a new home, and time and again we returned to the Pansionat Zvenigorodskiy, a place pretty well-known to furies and a place that knows furies pretty well.

2014 marks the first year when we've booked out the entire accommodation, even though we do not rule out the possibility that the occasional sly human academician or several will still manage to wriggle their way in among the bushy-tailed furies, as is their wont.

Every year the number of attendees grows, and this year it's just two furies shy of 200 (we hope that by the time the conbook is published, the two remaining slots will have been filled!).

The geography and scope of the Furrence continues to expand, and we have a lot more attendees from abroad.

We welcome Fox Amore, this year's Guest of Honor at Rusfurence, and we hope that the warmth of Russian hospitality makes up for the coldness of Russian winter. You can read more about the Guest of Honor further in the conbook.

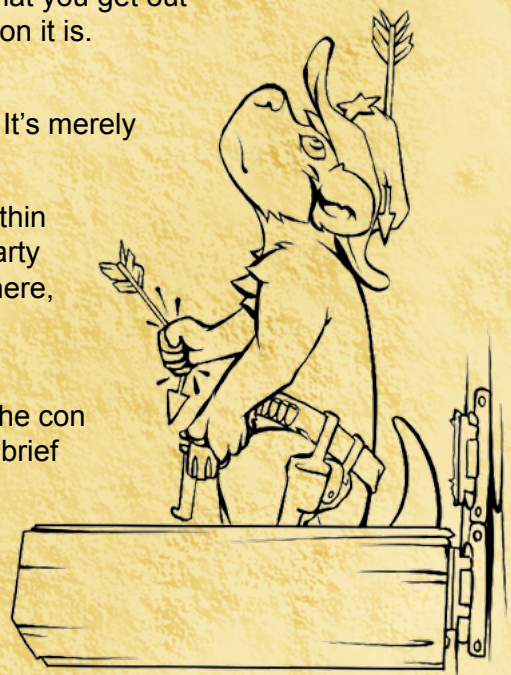

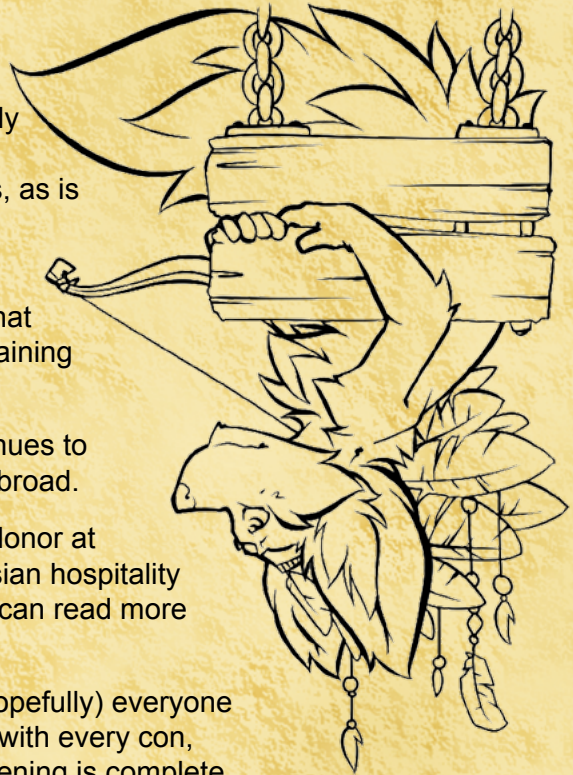

The Furrence is organized in such a way that (hopefully) everyone finds something they will enjoy during the con. As with every con, the attendees matter the most. No event, no happening is complete without you the attendee, and so it is vitally important that you get out and about, that you make the Furrence the awesome con it is. Remember: a con is as much fun as you make it be!

Wild West, snowed under! Who says it's impossible? It's merely preposterous.

The cozy little town of Furville welcomes everyone within its premises, and one can only hope that the coyote Marty doesn't get up to too much mischief. He's always out there, planning something naughty – but when he isn't, he's happy to make another friend.

In order to help con attendees find their way around the con and never miss an interesting event, we've compiled a brief overview of the con for you. Read on!

Welcome to RusFurrence!

Guest of Honor

Fox Amooore

After joining the fandom in 2006, out of an unremitting love for foxes, Fox Amooore has since risen to become one of the most widely listened to musicians within it — and rightly so!

He has produced several albums including “Feel” and “The Ballad of Midnight” and was the composer behind the entire soundtrack to the *Bitter Lake* film released in 2011. He has worked in collaboration with numerous artists both for single releases for his songs and for his albums. The artists include AlectorFencer, Kaji, Nimrais, TaniDaReal and many more.

His acclaimed performance at Eurofurence alongside fellow musician Alexander James Adams and acclaimed author and writer Peter S. Beagle raised thousands of euros for a charity event.

Fox Amooore is a professional musician who has worked as a piano and keyboard player in bands ranging from Jazz duets to original Progressive Metal bands. Particularly notable is his work in *The GetBack Band*, a Paul McCartney tribute band that has seen Fox perform in such venues as *The Cavern Club* (Liverpool) to *The Alhambra Theatres*.

He has been the author and composer behind the soundtrack to *Order Up!*, a game released on Nintendo Wii, iPhone and Android.

He currently has an artist sponsorship with musical instrument manufacturer Roland.

This is Fox Amooore's first visit to Russia, and we hope that he finds the climate cold enough, and the hospitality warm enough, for the two to strike the perfect balance

of comfortable temperature! Fox will be performing exclusively for Rusfurence, and it's an event that you won't want to miss.

Creativity & Collaboration: from Inspiration to Masterpiece

6 February, Thursday 17:00 – 19:00

Fox Amooore (musician and composer) and **Alex F. Vance** (author, literary editor and renowned voice actor) have collaborated in the past to an astonishing success, the most recent and notable being the recording of Fox Amooore's new album, *Come Find Me*, at Abbey Road Studios in London. There were other projects and other successes (and not), and it's about them that the two will share their experiences about. If you speak English, be sure to visit this event!

Fox Amooore's Performance

7 February, Friday 20:00 – 22:00

Our Guest of Honor's self-explanatory main event will take place in the Auditorium. Come and perk your ears to some of the best furry music ever produced!

Lion Guardians

Golden fur, a tufted tail, guttural roar and the embodiment of everything that's powerful and graceful about a feline – sound familiar? That's right, we're talking about lions here.

Lions that are in need of your help. The population of lions has been declining worldwide. Currently there are fewer than 35,000 lions in the world and the numbers keep falling at an alarming rate.

Lion Guardians operates in Kenya in territories near Mount Kilimanjaro and has recently expanded its operations to Tanzania. Its success is best measured by lack of failure: in 5 years of its existence only 3 lions were lost to hostile actions on protected territories, whereas elsewhere in Africa this number reached 90 (hostile action being acts of revenge, direct confrontation, and the result of lions attacking livestock).

Lion Guardians changes the way people think. Local tribes are informed in the ways of peaceful territorial coexistence with lions (yes, it is possible!), thereby reducing the number of conflicts, preserving the beauty and grace of these felines, and ensuring their ultimate survival. One of Lion Guardians's most notable achievements is the change to warrior initiation in the Masai tribe. Before, a young Masai man achieved warriorhood by hunting down and killing a lion. Now, he establishes a spiritual connection with the beast, becoming his protector instead of enemy. Lion Guardians is

working on expanding its circle of influence over other African tribes in neighboring territories.

The most obvious and important evidence of the mission's success is that the number of lions in the territory has been steadily increasing.

There is a fundraiser at Rusfurence 2014 to help Lion Guardians achieve its goals. All funds donated will be transferred directly to the organization and will aid in such tasks as equipping the rangers, purchasing necessary medication, and financing other important activities to help protect the lions.

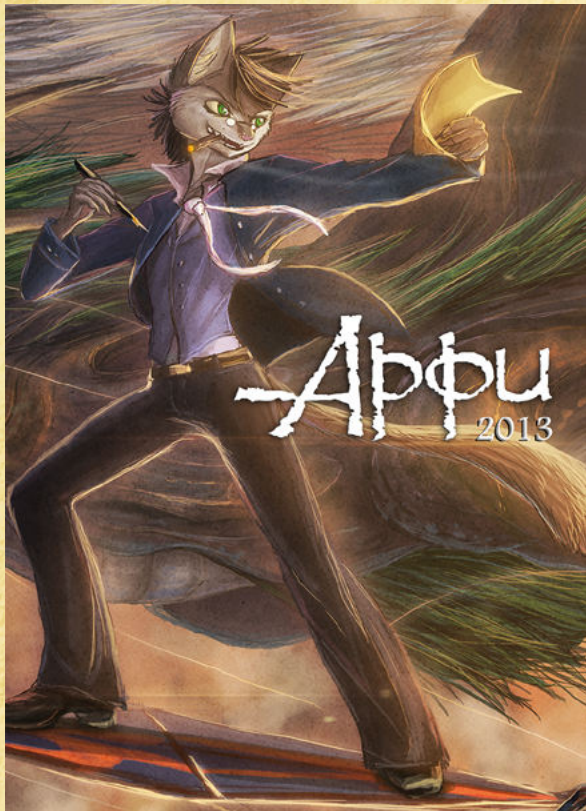

You can help by purchasing some art at the Art Show and Auction, because some artists have chosen to donate a portion of the profits to Lion Guardians.

*This charity event is organized by **SilverShine** and is not an official Rusfurence 2014 event.*

Last year's mood badge pack, the Crazy Bat, has been brought out and enhanced with 5 new badges for the discerning collector (and emoter).

Creativity Events

Advanced Photography (EN)

6 February, Thursday 12:30 – 14:00

Building on last year's introductory panel, this year **Alex Vance** will focus on developing an eye for the details that make a strong photo, specifically portraits. How to convey emotion through lighting, how to emphasize a subject's eyes for maximum impact, as well as post-processing techniques for flattering portraits. The event is held in Alex Vance's trademark eloquent and emotional English, so make sure you stop by even if you don't speak it!

The Miniaturists' Coterie II (RU)

7 February, Friday 11:00 – 15:00

The Miniaturists' Coterie returns renewed in 2014 with two hosts: **Sauron** and **Segol**, and this year our medium of choice will be wood, as opposed to glass, because wood is beginner-friendly material. In this workshop you'll be given acrylics, a piece of plywood, a lot of inspiration and guidance, and complete freedom to express yourself! The miniature will be lacquered and varnished to produce a complete art piece. Put it on a chain, and you'll have a beautiful memento to remember Rusfurence 2014 by!

For those wishing to try and tackle that tricky material, the glass, we're bringing pieces of colored glass and pebbles.

When you come to this workshop, and we hope that you do, it's best to have a general idea of what you want to produce. Having a pencil sketch will help immensely (and because these are miniatures, the sketch should be 1 inch in either dimension). You can also bring your own brushes, pencils and erasers, or you can use our stock ones. Most importantly, come one, come all, and let's do miniature art.

Artist Battle

7 February, Friday 17:00 – 18:00

The battle? Artistic and brutal. The rules? Few and simple. There will be three teams of two artists each, and the host and the audience collectively decide on a character, a setting, and a background for the team to work on in the course of only a few minutes. By the end of a round the artists must present a picture and a story that accompanies it.

This year we hope to see many more participants, of both the artistic persuasion and the audience to supply the former with creative input. Come watch ideas materialize literally out of thin air – and help decide the winner! The event is held by **Enaya**.

ARFI: Celebrating 10 Years of Furry Art. After this: Poetry Night (RU)

7 February, Friday 22:00 – 00:00

The creative dialog for the aficionado of furry art. Memories of the past and plans for the future. An overview of ARFI: what it embodies and how it is made. Come and flex your literary muscles; present your work and listen to that of others, share your experience and bask in an atmosphere of relaxed creativity. This is an open-admittance event for all authors and lovers of furry art, starting at 10 PM and ending well into the night. By **StormWind** and **Kydjo Sylves**.

6 February, Thursday 17:00 – 19:00

Often described as “paintball without the pain”, Laser Tag combines first-person shooting with the precision of tagging offered by infrared-enabled weapons and targets worn by all players. Because of the ease of setting up, Laser Tag presents a diverse range of unique scenarios.

Rusfurence's Laser Tag will be in concordance with the Wild West theme, with the weapons specifically restyled for the event to offer an immersive experience. Give up automatic arms in preference to guns that require the precision, aim and cold-bloodedness of a true Western cowboy. If you like to be out and about and physically active, then Laser Tag is for you!
