

RUSFURENCE 2016

Welcome to Rusfurence 2016!

This time we get to America 30-40-ies. A legendary city where the neon lights of bright signs are inviting for a cup of «tea», a cabaret or blackjack in underground casino, and the city's name is derived from «wild garlic». Where at night, and sometimes during the day you can hear shots of revolvers and gunfire of «Mr. Thompson», confirming the power of the mafia in the city.

In 20-ies this city was considered the pearl of the West coast until the young and daring gangster seized all the power in the city and created the Empire. Mafia was fabulously enriched by prohibition supported by the government. At that moment mafia gained a real power. The city became a cradle of crime, the kingdom of forbidden pleasures and criminal acts. All power in the city belongs to the criminal Syndicate — The Family. The government and politicians are totally corrupted. Local police cannot do anything in this situation. Maintaining the status and capturing the city took a lot of energy. After a while the head

of the Syndicate is going to retire and thinking about a successor who could continue the Family business. Rumors that Don decided to retire have caused a discrepancy between those who are related to him by the bond of blood and who actually runs the business. And now each part tries to find favour in the eyes of Don.

This situation attracted the attention of some circles of society. They have their own point of view...

Code of Honor (Rules of Rusfurence)

Rusfurence has become a really large-scale event. Participants arrive not only from all over Russia, but from other countries as well. In order to avoid any mishaps, please follow these simple rules of conduct.

Registration and badges

You must be at least 18 years old on the first day of the convention. Only registered attendees may enter the convention space. Your member badge (or

General behavior

Please treat the others respectfully. It should go without saying that some people limit any kind of physical contact to their close friends and family only. If you are not sure whether somebody wants to be hugged, tackled, pounced or otherwise molested, please ask him or her first. Please contact staff if you need any help with settling disputable issues. There may be random civilians (non-furries) in the hotel. Please do not disturb them and avoid conflicts. You are liable for any damage you might cause to another person or their property. Never enter other people's rooms without their consent. You are required to ask your roommates for permission before running a room party or inviting guests. It is also forbidden to enter smb else's room. Photography and filming is strictly forbidden in the Art Show room, Dealers' Den and Fursuit Lounge. Please do not take pictures of others without their express consent. Knowingly harboring a non-payee without an explicit permission from the staff will lead to eviction of all involved

guest badge) is a "ticket" to all events. You are required to wear your badge prominently so that you can be identified and recognized as a member of the convention.

parties without reimbursement of fees.

Clothing and decency

In public places observe the proprieties. Nudity and underwear is not allowed in public. Blatant exposure of fetish gear (accessories related to age-play, pet-play, bondage, sadomasochism etc.) is not permitted in public, even if it is a part of the suit.

Please leave this kind of stuff for the privacy of your own room. Same goes for various insignia that may be found offensive by other members. No visible "anatomically correct" costume details allowed.

Alcohol and drugs

You are expected to drink responsibly. You will be held liable for what you say and what you do, even if intoxicated. Alcohol drinks are not permitted in public places, except for the bar. Persons who are intoxicated to the point of incapacity may be escorted to their rooms or expelled from the convention, at the Chief of Security's discretion if it happens on more than one occasion. Smoking is not permitted anywhere, except the entrance of the hotel. When smoking a hookah, keep in mind that a piece of coal burns through any surface in a blink. Hookah-smoking in the rooms is strictly prohibited. The possession, consumption or sale of illegal substances (including, but not limited to: THC, LSD, Ecstasy, Amphetamines, etc.) will not be tolerated. Attendees who are drug intoxicated will be expelled from the convention.

General hotel rules

Protect the environment and our good name — use trash cans. Attendees may not enter the service areas of the hotel. It includes all backstage areas, service elevators, rooftops, emergency exits. Tampering with any fire-protection devices — in particular, abusive triggering of fire doors or alarms — is prohibited and will have

serious consequences. The same goes for disabling smoke detectors. It is prohibited to draw any inscriptions, put posters or signs on the walls. The walls must be kept clean of any substances. For the purpose of attaching the door plates please ask Con-Ops and get special adhesive. It is not permitted to bring any animals with you except for those that have been registered in advance. You must not disturb the other hotel guests and enter their rooms. Please keep the noise down after midnight.

Weapons and dangerous items

ALL types of weapons are prohibited in public places, convent rooms and hotel territory. All weapons, including look-alikes, replicas, tools and toys must be approved by the Chief of Security. Use pyrotechnics, smoke bombs, small arms only outside and follow the instructions. NEVER threaten, even jokingly, another person with a weapon, be it a replica or the real one. Mock fights, swordplay, fire breathing or any other activities that may adversely affect bystanders or hotel property are allowed only outdoors, only upon following safety rules and only on approval of the Security Team. Exercise caution with laser pointers as the laser beam can injure other people's eyes if pointed at them directly. Even reflections can be harmful. Don't use laser pointers during on-stage performances as it may distract the artists. Violation of these rules will get you banned from the con.

The bottom line of rules

When in doubt, please ask the staff members—preferably before the convention starts. Inform the Security Team about any suspected violation of rules. These rules are not to be debated during the convention. The Chief of Security will, however, be available for you in case you feel you have been incorrectly or wrongly accused of violating any of the rules. The Chief of Security reserves the right to impose any and all sanctions against violators of these rules or those persons involved in some kind of unacceptable behavior. The definition of unacceptable behavior remains at the sole discretion of the Chief of Security and the members of the Organization Team. Sanctions may range from a friendly reminder to an indefinite ban from the convention. The Security Team works hard to ensure your safety during the con. They are the people to talk to if you have any problems. Please comply with their requests and heed their advice. Please address all security-related inquiries to Melnax.

Art Show and Auction

Rules and Regulations

If you are an artist, a sculptor, or just a fan of furry art, then these events are for you! Here you will be able to show off your pieces of art at the exhibition, and also sell them at the show and auction. And, of course, you may purchase some works to your liking! Art Show is held in two stages: an exhibition with sale (hereinafter — the exhibition) and an auction. Art Show rules are exhaustive, but easy to understand. We've just tried to reflect what is commonly implied in such cases and events, to avoid excessive questions and disputes. Please read the rules thoroughly. Whilst betting at the exhibition and auction, or by placing your works at the Art Show, you agree and accept the rules of the Art Show.

For buyers and audience

Payments for the purchased items are performed IN CASH ONLY, and in Russian Roubles (RUR). Other payment methods (e.g. credit cards) are NOT accepted. Please, keep track of your financial resources. Art Show does not sell or buy art. Art Show is acting as an intermediary between the seller and the buyer of artwork.

Bidding

How to Bid:

I. A buyer should write down his bid on the tag. The bid should be an integer value in roubles, without cents. The bid value must be written legibly and numerically. We are not going to do puzzle-solving,

trying to figure out what price you meant to set. Incomprehensible or illegible bids will be rejected. The bid should be higher than the minimum threshold and greater than any previous bid.

2. The buyer should attach the bid tag in the first free field from the top in the corresponding item label. Stickers that are attached elsewhere violate the rules of the exhibition and will not be processed. When all four bids are made, further bids may be made at the auction ONLY. I M P O R T A N T !

In case less than 15 items are eligible for the auction, items with 3 bids will also be included in the auction list. A buyer can place bids as many times as necessary, if the work is for sale and there are free cells for bidding. Some of the works might be "not for sale"; therefore, bidding on such items is not available. Such exhibits will not have bidding cells on their labels.

I m p o r t a n t :

The bid qualifies as a commercial offer and requires the buyer to purchase the item won by the last price that's been set by him. Do not modify, remove or overlap the bid tags. In case of an erroneous bid, the buyer can inform the Art Show team, who may cancel the bid. The buyer is solely responsible for the safety of his tags. Therefore, it's for you, and you only to ensure that the others would not be able to bid on your behalf. Any collusions and arrangements between artists or their agents and customers are prohibited. False bids, bids made in order to over-price the item, bids on behalf of someone else (without the owner's consent) are also prohibited.

. MAR . 75 .

The Auction

Works of art which receive all four bids (unless otherwise specified — see above) will be put up for the auction. The time and location of the auction will be indicated in the schedule of Rusfurence. At the auction, bids may be placed by anyone, no matter if they bid on the item at the show or not. Therefore, you may lose the item you were willing to buy. The maximum bid is not limited, but remember that you must pay in cash for all of the purchased items before the end of the art buyout. (see Art buyout). If you have made any bids at the Art Show and those items are put on auction, try not to miss the auction. In case no one came up with a higher bid for the item at the auction, it will be sold at the last price offered at the show. Art Show organizers may prevent the buyers from participating in the auction, in case they violate the rules of Art Show and/or Rusfurence.

Art buyout

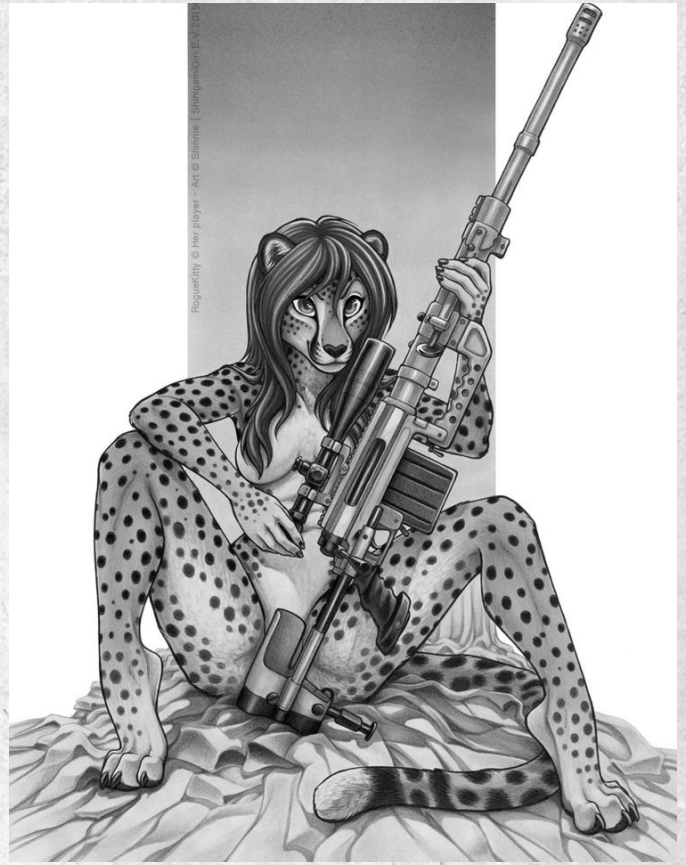

The location and time of delivery of the won items will be specified in the programme of the Rusfurence. During the art buyout, customers are required to pay and pick up the purchased items from the organizers of the Art Show. Do not linger till the last minute before the end of the art buyout. The list of items bought along with their price can be retrieved from the organizers of the Art Show. The payment for the items is made in cash, and in Russian Roubles only. We do not accept credit cards, cheques or any other form of payment. Also, you would better obtain some low-value bank notes prior to the buyout, as we may be unable to provide change. If you do not fetch your purchased items during the buyout — we will try to contact you. In addition, your name and contact information will be given

to the vendors, and they will also try to get in touch with you. Please relieve us from this tedious business. The list of customers that have not redeemed their won items will be further publicly available to everyone at the Rusfurence website. Such behavior may lead to ban from the con or other forms of punishment. The Art Show does not purchase artwork and does not sell it either. We do not charge for allocating space at the stands and do not take interest from sales activities. Art Show is acting solely as an intermediary between the author and the customer: we provide space for exhibiting your works and organize events. After the completion of delivery of bought items to the customers — the money collected and the remaining works will be returned to the authors or their representatives. The authors or their agents will receive contact details of their customers and, if required, will be able to draw up the sale deeds. The authors alone are responsible for the declaration of income, taxes, etc. Sales at the Art Show are personal transactions of the artists. If you are a professional commercial artist, it may be required. If the work is sold, but not paid for by the buyer, we will try to contact the buyer and resolve the issue. If the issue cannot be sorted out, the author or his agent will be provided with the available contact information of the buyer to be able to complete the transaction on their own. Since the act of purchase / sale of work is committed between the author and the buyer, the Art Show staff cannot pay out the money that has not been collected from the customers. The author has the right to use any means to complete the transaction effected during the auction.

Honorary Citizen

ShinigamiGirl is a 29-year-old furry artist from Montreal (Canada). She was the Guest of Honor at "Fur-Eh! 2014" (Canada) and "Rocky Mountain Fur Con 2014" (USA). She was involved in illustrating the annual "Heat" magazine, Kyell Gold's "X" anthology and "Sixes Wild: Manifest Destiny" by Tempe O'Kun. Shinigami has a degree in psychology and is fluent in French, English and Russian.

Shinigami was born in Leningrad (now St. Petersburg). However, at the age of 1 she and her parents moved away. She had stayed in several Russian cities and even Dushanbe (Tajikistan) before she moved to Montreal at the age of 8. Shinigami says she barely remembers Russia since she was so little, but those memories that she has retained are definitely positive. In her teens, Shinigami worked with horses for a couple of years, training them and teaching beginners to ride horses. Horse riding since childhood has cultivated love for these graceful animals that have become an important part of her life,

which is reflected in the artist's numerous sketches and drawings. In the year 2000 Shinigami, upon the advice of her female friend, started improving herself as an artist and taking her first commissions. Alongside with that, she gained an insight into furry subculture. According to Shinigami, she was attracted by these people's openness to the world, their sociability and friendliness, freedom of thought and opportunities of self-expression. In 2008 Shinigami took a gap year in the university where she studied to be a psychologist and moved to Switzerland for a pre-agreed job as a marine mammal trainer. She worked with fur seals and dolphins. In 2010 Shinigami returned to Montreal to continue her study. After graduation she continued working as a freelance

arsist and became a regular con-goer. ShinigamiGirl's fursona has changed only once since she joined the fandom. In 2001 it was a unicorn / dragon hybrid. In 2009 Shinigami realized that she had outgrown that fursona. The Golden Cat reflects both her personality and character and her appearance (hair, piercing, tattoos). Regular interaction with the furry community, as well as furry art, are Shinigami's sources of inspiration. Besides, she gains inspiration for her beautiful pieces of art by watching

real animals. The artist explains that she tries to depict grace, natural features and habits of real animals, while preserving anthropomorphism, though she doesn't make them hyper-realistic. In addition, she is inspired by TV, fiction movies and video games. Shinigami, as befits a true artist, is always in creative development and endeavor. She says she would like to try herself as a fursuit maker, so there's a chance that in the nearest future a new fursuit workshop will appear.

8. Cutthroat Artist.

(1.5 hr(s), ShinigamiGirl)

Artists are competing against each other in a drawing game. They each start with a set sum of coins. There is a predetermined «menu» with things they can spend their own coins on that will sabotage the other artists who are drawing. For example for N coins you could buy a sabotage that will make all the other artists draw with their other hand. Or draw with kid's crayons. Or draw with a blindfold. The harder the more it costs. They each have to complete a drawing on a chosen theme that will then be judged by 1 or 2 judges who are sitting outside so they have no idea which drawing is which and what sabotages were used. Every round the artist with the least amount of points gets eliminated. So the point of the game isn't to waste all your cash to sabotage others, it's to be smart about it! The audience can participate by choosing themes for the art.

FURDANCE COMPETITION 2016

Final preparations for the main dance competition of the year are in full spate. The dance floor is maintained speckless, technical staff darts in and out checking equipment. Tension is in the air. Very soon the dancers will start warming up, feeling nervous about their performance. But as of now — silence reigns in the hall, like the calm before the storm of deafening applause, dazzling flashes and thundering music!

FURDANCE COMPETITION 2016 throws its doors open to you! This year's FURDANCE COMPETITION is getting even brighter — thanks largely to you, our dear attendees. We've got new lighting, good sound and special effects. This is gonna be a real furry show! After much discussion we have decided to squeeze the entire event into one day. This means, there will be no finals and superfinals. There will be only one grand spectacular show! And now we proceed to what you all have been concerned about — the rules.

"DANCE BATTLE" FORMAT

FURDANCE COMPETITION 2016 is an open event, all members and guests of Rusfurence 2016 wearing either full or partial suits may participate. Each participant prepares his/her own repertoire. If during Rusfurence you suddenly make up your mind to participate, you will still be able to enter for FURDANCE COMPETITION 2016. Bring your sound tracks. Even if you don't have any, ask the organizers of FURDANCE COMPETITION

2016 — they will help you select appropriate music from their playlist. FURDANCE COMPETITION 2016 will consist of one round.
FULL SUITS (points with xI factor)
PARTIAL SUITS (points with x0,7 factor)

NOMINATIONS

BEST FURRY PARTNER DANCE 2016

(full and partial suits, points with xI factor)

BEST FURRY DANCER 2016

Warning: the complexity factor for partial suits is subject to change (in either direction).

POINTS

We have no special requirements for the style of music that you wish to use. Choreography and story are also completely up to you. We will judge you according to the following criteria:

- Getting into the character
- Ability to dance in a fursuit + choreography
- Ability to work the crowd (online voting + audience appreciation)

Points will be awarded PRIVATELY. That is, you will see the total score for the dance at once, but you will not know how many points were given by this or that judge. Let us not embarrass the jury members.

THE JURY

To avoid biased voting, the dance will be judged by four COMPETENT judges in secret ballot mode. The jury members will be revealed only at the event.
