

SlofluffCon

ATOMIC FUTURE

Welcome future friends!

First of all, thank you. Thank you to everyone who believed in us, who registered for SloFluffCon, and who supported this convention in any way. Without you, this simply wouldn't exist.

Making this convention was not easy for the team or for me personally. It came with a huge amount of responsibility, risk, and pressure. There were moments of doubt, stress, and many late nights wondering how to make everything work. But even in the hardest moments, I believed in this project. I believed we could create something special. Something awesome. Something that makes a real step forward by setting a brand new standard for the future of our con the SloFluffCon.

I can honestly say that this convention has been the biggest challenge of my life so far, and also one of the most meaningful.

As you've probably noticed, we made some big changes along the way. We changed venues, dates, and even the location. That was a big decision. I overthought it more times than I can count and asked myself again and again if it was the right decision. But I trusted the vision, trusted the community, and believed that it would work, and seeing all of you here today tells me it was worth it.

From the bottom of my heart, I want to thank my incredible team. And thank you to everyone who supported me on this journey. You made this possible.

May the future shine bright!

Welcome to SloFluffCon. ^^

SFC

Guest of Honor

The SFC association is proud to announce that this year's Guest of Honor is **Thabo Meerkat!**

Thabo Meerkat is a Dutch creator that's best known for promoting the wholesome side of the furry fandom on his Youtube channel. They're also an artist and they regularly stream while drawing and interacting with the viewers.

They are passionate about helping others, whether it comes to charities or simply being there when people need support.

fun facts about Thabo:

Their name stands for happiness in Swahili, one of the many languages spoken in the south part of Africa and where the species meerkat originates from.

In fursuit, they are easily recognized by their big rounded glasses and a red tie - which is, in fact, a very long red sock!

They are one of the talented artists behind the comic section in the Daily Eurofurence newspaper!

Oh, and they've been a staff member at Eurofurence for over 20 years!
