Charting Paradise: A Story of Self-Discovery

 JohnWayne

A performance piece chronicling the journey of personal insight via one fur's discovery and involvement in the fandom, dragon_cushion is very pleased to present a reading of "Charting Paradise" to an audience of his peers, in the space for which it was written: a fur con. Exploring such topics as external/internal judgment, creative growth, and delicious French toast, the piece is an extended poetic metaphor in a stream-of-consciousness style inspired by the works of famous performance artist Holly Hughes. The journey spans from the innermost doubts and emotions of the artist's mind outwards to encompass the fandom as a collective in relation to society and beyond. The performance will last about 20-25 minutes followed by a question and answer session in which audience members are invited to share their own experiences in discovering and becoming involved in the wonderful world of furry.

Furry Variety Show

 Grand EFGH

The FVS is a non-competitive variety show. It's a bit of Vaudeville, and sort of like being on the Muppet Show. We all cooperate as a team, and we mix and match performers to acts as needed. If you have a "ready to go" act, we'll give you a spot. If you want to be in the show but don't have an act, join us and we'll add you to an existing act. We strongly prefer to have all of our actors featured as puppets or fursuits, or at the very least have some furry content. Our show will this year be held on Saturday at 7PM. We also will be holding TWO rehearsals (Friday Evening and Saturday Morning). You only need to attend one of these. If you have a choice, try to attend the Friday rehearsal. Since our show is now during prime-time, we will be a bit stricter about adult content. Keep it PG folks! In rehearsal we lay down multiple "masking tape" stages on the ballroom floor so that multiple acts can work out their marks and their timing in parallel. The MFF Furry Variety Show also welcomes video content in the show if submitted in advance. See our web page for more details.
